

PRESS RELEASE

Biznet Continues to Bring The Best Technology Innovation for the People of Palembang

Palembang, South Sumatra, 8 January 2020 – Entering 2020, Biznet is settle company's position an integrated digital infrastructure company presenting the best technology for the people of Indonesia that includes Fiber Optic, IPTV, Data Center and Cloud Computing. This year, Biznet also continues to expand its network expansion, supported by various new innovations, including The New Biznet Fiber network, which is the latest Fiber technology network that is able to deliver internet services with much better performance and much greater bandwidth capacity, expected to become the answer for the growing digital needs for the people of Indonesia in the future.

"Biznet is committed to provide fast internet service to increase the growth and progress of Palembang City. Currently, Sumatra Island is one of Biznet's focuses in expanding its network. Not only has a rapid development, the needs of people in Palembang for digital technology services have also increased rapidly, specifically the need for fast and high quality internet connections. Besides Palembang, in Sumatra Island, our network is also available in Padang, Jambi, and recently our network can be enjoyed by people of Bandar Lampung. We hope to continue to increase our coverage area, so that all people of Sumatra Island can experience fast internet connection and of course can support all their daily digital activities," said Adi Kusma, President Director of Biznet.

Palembang is not only famous for its special food, Pempek, but also because the city offers many tourist attractions visited by many tourists both local and international, which certainly gives positive impact on Palembang's economic growth and tourism industry as a whole. The increasing number of tourists who come to visit this city has made the local government of Palembang making improvements in various aspects, including technology. In line with that, Biznet is also committed to support the advancement of Palembang by providing high quality Internet service, since we know that in the process of developing a city, a high quality Internet connection is increasingly becoming a necessity.

Biznet has been available in Palembang since 11 April 2014, and its coverage are has been available in various areas, and there are around 39 urban villages covered by Biznet network, including Lawang Kidul, Kuto Batu, Kepandean Baru, 15 Ilir, Kemang Manis, etc. In addition, to support the development of Small and Medium Enterprises (SMEs) in the city, Biznet also provides reliable technology solutions through Biznet Home x NEO Web Space bundling service. This service is not only providing super fast internet service from Biznet, but also provides NEO Web Space application, which is simple and easy website creation application that will help you to make digital activities more exciting. NEO Web Space service is included in Biznet Home subscription fee, with no additional cost. To activated NEO Web Space service, please visit <https://space.neoweb.id>.

For Palembang, Biznet also presents super fast internet service for large, medium, small business segments, as well as internet service for housing and apartment segments that can be selected according to user's needs. For housing/personal users, Biznet has internet service called Biznet Home service, offering internet service packages starting from 50 Mbps at a price of 350,000 IDR/month. For business/SME segment, Biznet presents Biznet Metronet service, which will be the best solution to support business activities of SME and startup. Biznet Metronet service is available starting from 50 Mbps with prices starting from 1,150,000 IDR/month. For people who prioritize the best performance in choosing a dedicated internet package to support business activities which continue to increase, Biznet
