

PRESS RELEASE

Biznet Expands Network in Kalimantan Island

Jakarta, Indonesia, 17 June 2022 – After previously being present in Pontianak City, Biznet is now expanding its network on the island of Kalimantan, namely Samarinda City and Balikpapan. Biznet proves commitment by expanding its network, to reduce the digital divide in Indonesia. And Biznet introducing services to the people of Samarinda City with the opening of Biznet Branch Samarinda Gunung Kelua branch office, which is located on Jl Lieutenant Jend Suprpto No. 11, Samarinda City, East Kalimantan 75123 and will add several branch offices in the near future. For more information, please visit biznet.id/samarinda.

As the capital of East Kalimantan province, Samarinda City is one of the cities that continues to keep up with technological developments, which are growing rapidly and require an Internet connection. Therefore, Biznet's presence in Samarinda City is Biznet's step to expand its network to the Central Indonesia region to meet the high digital needs for Internet services supported by the latest infrastructure. Continuing to expand, Biznet network is currently available in several areas in Samarinda, namely Dadi Mulya, Sidodadi, Bugis, Sungai Pinang Luar, Port, Gunung Kelua and will continue to grow so that people can immediately enjoy Internet services from Biznet.

Before the expansion of the network in Samarinda City, Biznet was also available in Balikpapan City. As a city that has the largest economy that makes it a center of business and industry, of course, this rapid development also affects the support of Internet network infrastructure so that all activities can run smoothly and efficiently. Until now Biznet is still expanding its network and is now available in several villages, namely Muara Rapak, Batu Ampar, Mount Samarinda, Mount Samarinda Baru, Damai Baru, Damai Bahagia and Gunung Bahagia, which are also accompanied by the presence of Balikpapan Damai Branch at Ruko Haryono Palace Complex No 12, Jl MT Haryono, Balikpapan City, East Kalimantan 76128. For more information, please visit biznet.id/balikpapan.

"We are very happy to be able to provide good news for the people of Samarinda and Balikpapan cities, that the Biznet network is now available as the best WiFi Internet service solution. Looking at the increase in internet service user traffic coupled with changes in people's lifestyles today, which has become all digital, of course, the best Internet connection is needed. Biznet is committed to continuing to expand its Fiber Optic network in Indonesia, which will be the best solution for the needs of the people of Samarinda City and Balikpapan City," said Adi Kusma, President Director of Biznet.

To support all digital activities of the people in Kalimantan Island, Biznet comes with a wide selection of Internet service packages specifically designed to support all digital activities supported by the latest technology infrastructure and The New Biznet Fiber network. People in Kalimantan Island can choose an Internet service package that suits their needs, as follows:

- **Biznet Home service**, is the best WiFi Internet service for residential/apartment segment with connection speed up to 125 Mbps for upload and download.
- **Biznet Metronet service**, an Internet service for the SME or *startup* segment that offers several choices of Internet service packages ranging from 50 to 150 Mbps at a price of Rp 1,150,000/month.

PT. Supra Primatama Nusantara (Biznet)

MidPlaza 2, 8th Floor. Jl. Jend. Sudirman 10-11. Jakarta 10220 – Indonesia.

- **Biznet Dedicated Internet service**, a dedicated Internet service for large-scale companies or corporations, which offers Internet service packages starting from 60 Mbps. This Internet service has a 24-hour connection to the Global Internet with *dedicated bandwidth* allocation (1:1), ensuring network performance is always in the best condition at all times.

As part of the process of developing digital technology in Indonesia in providing Internet services, Biznet's main task has been to continue to gradually expand its network for the future. *"The use of the Internet today has had a lot of positive impacts on society and the availability of the Internet also opens up opportunities to develop one's potential. For this reason, Biznet plays an active role in supporting the activities of all Indonesians who want to work on positive things supported by the best WiFi Internet service from Biznet. We believe that the ongoing network expansion process can be a solution for people who already need the availability of WiFi Internet service in their area,"* concluded Adi.
