Biznet Gio Meets Information Security Management Standard by Receiving ISO 27001 Certification

Jakarta 25 January 2018 – In welcoming 2018, PT Biznet Gio Nusantara (Biznet Gio) successfully received ISO 27001 certification, as part of the company's strategic efforts to continue improving its service standard by implementing Information Security Management System - ISMS.

Biznet Gio is the first cloud computing service provider in Indonesia that officially has two guaranteed certifications that include PCI-DSS and ISO 27001. ISO 27001 certification can only be given to a company that runs evaluation and implementation efforts in order to maintain information security by implementing information security management system, including control mechanism for policy, process, procedure, organization structure and infrastructure functions within the company.

CEO of Biznet Gio, *Dondy Bappedyanto* said, *"The efforts that we've been doing to gain this certification have been achieved through independent audit process that was running periodically to ensure that the company has properly applied and met information security maintenance procedure according to industry standard."* The standard does not only include information technology aspect, but also covers all business process that the company is running, including all supporting parties and vendors that involved in the process.

"We have a strong commitment to continue improving customers and public trust especially for several industry sectors that need to be very careful in managing and keeping customers' data. Our compliance does not only ensure guarantee in terms of cloud service, but also in terms of Data Center, since Biznet Data Center has already received ISO 27001 certification," said *Dondy*.

With the growing demand from the industry for cloud infrastructure service in 2018, Biznet GIO aggressively expands its service that has compliance guarantees in order to meet the demand from various industry sectors, as well as individuals, in Indonesia who are actively build and develop applications.

This ISO 27001 Certification has made Biznet Gio's two main products, GIO Cloud and NEO Cloud, become more attractive for the industry that requires ISMS standard during infrastructure planning. Biznet Gio has also received PCI-DSS certification that provides guaranteed privacy for customer data storage, for online payment system.
