

PRESS RELEASE

Biznet Network is Now Available in Bandar Lampung

Bandar Lampung, January 7, 2020 – After officially announced its network expansion to Pontianak, West Kalimantan back in October 2019, today Biznet is officially announcing its network expansion as well as digital infrastructure development in Bandar Lampung, the capital of Lampung Province. Officially available in Bandar Lampung, Biznet services can now be enjoyed by many people in four cities in Sumatra, which includes Jambi, Padang, Palembang, and Bandar Lampung. The network expansion to Bandar Lampung city was done along with the official opening of Biznet branch office located at Jl. Jendral Sudirman Ruko No 57D, Bandar Lampung.

As the capital city of Lampung Province and also one of the biggest cities in Sumatra, Bandar Lampung has become one of the most crowded cities in the island. The presence of Biznet's network and services in this city is expected to be a solution to meet people's need for a fast and high quality Internet connection, to support the increasingly diverse digital activities of the community. *"Seeing the rapid growth of Bandar Lampung and high demand from the community to expand Biznet network in Bandar Lampung, we are very happy since finally we can officially announce our service availability in the city. We hope that Biznet will be the best solution in providing Internet services and able to support the needs of digital activities for the people in the city. Today, we will continue to develop and expand the network in more areas in Bandar Lampung, so that people can soon enjoy the best Internet services from Biznet"* said Adi Kusma, Biznet President Director.

The high demand for an Internet connection that came from the people of Bandar Lampung is also supported by the strategic geographical location of the city, which is also becomes the main gate to enter the island of Sumatra from Java. This certainly makes Bandar Lampung as an area that has an important role in terms of transportation route, both sea and land, especially for logistics distribution activities from Java to Sumatra, and vice versa. As a city that we know famous for its "Siger" symbol, or a gold crown that symbolizes greatness, luxury, grandeur, well-mannered and cultured, Bandar Lampung has an important role in terms of economy and trade activities of people who increasingly need supports from high quality technology. Therefore, Biznet is committed to provide the best service for the entire community of Bandar Lampung.

As an integrated digital infrastructure company in Indonesia, Biznet presents services specially designed to support all current digital activities. All Biznet services are supported by the leading technology infrastructure and The New Biznet Fiber network that enables Biznet to provide the best technological solutions with much greater bandwidth capacity to support today's digital society's lifestyle. As an integrated digital infrastructure company in Indonesia, Biznet is committed to answer today's challenges and people's needs of an integrated digital telecommunication services by presenting high quality internet service, IPTV service, also world class Data Center and Cloud Computing service through Biznet Gio Cloud services.
