

PRESS RELEASE

## Starting The Year of 2020, Biznet is Available in Manado

**Jakarta, Indonesia, 5 February 2020** - This early 2020 Biznet officially announced the expansion of the network to the City of Manado, North Sulawesi. This network expansion was marked by the opening of Biznet Manado branch office located at Ruko Kawasan Megamas, F1 / No. 14, Jl. EA Mangindaan, Titiwungan Selatan, Sario, Manado, North Sulawesi 95113. Biznet, which is an integrated digital infrastructure company in Indonesia, offers Internet services for business and retail segments for Manado residents hoping to provide a solution for fast and quality internet connections to support the city's digital lifestyles. The city of Manado, the capital of North Sulawesi Province, is the first city covered by Biznet network on the island of Sulawesi, whereas the process of expanding the network is currently underway to cover other cities on the island as well.

*"So far, we have received many requests from the people in Sulawesi to expand our network to several cities on this island, one of which is the City of Manado. In addition, we also see that the need for quality Internet services continue to increase from time to time. Therefore, today we are very happy because our network is finally available in Manado and we can offer the best solution for the needs of the people in this city. Network expansion in other cities will also continue and we will soon be able to have our network present in other cities, not only in Sulawesi but also in other islands in Indonesia,"* said Adi Kusma, President Director of Biznet.

As the Capital City of North Sulawesi Province, Manado has enormous potential, both in terms of economy and tourism. The economic growth of Manado and North Sulawesi was above 6 percent throughout 2015 and above the national average, making the city chosen as the first Top 10 Most Recommended Cities for Business 2015 by national entrepreneurs (Best Cities for Business 2015 survey by SWA Magazine). The role of the government in advancing the city of Manado in addition to aggressively promoting and attracting investors to invest in this area, the government also continues to carry out infrastructure development and the development of a boulevard reclamation area which is currently a business center in Manado. From the scientific field, the prospect of the city of Manado has actually been long predicted by a national hero, Dr. GSSJ Sam Ratulangi who conducted an in-depth study in 1948. At that time, Dr. Sam Ratulangi saw that Manado would play an important role in the national and even global economy because of its position on the Pacific rim.

*"In accordance with our commitment to expand our network in more cities and areas in Indonesia, the presence of the Biznet network in Manado hopefully can support the development of digital technology and creative economic growth in this city, which will be a motivation for us to continue working to expand the network to more cities and presenting integrated digital technology services for the community,"* Adi added.

For Manado residents, Biznet presents super fast internet services for the SME or startup business segment, as well as internet services for the housing and apartment segments that can be selected as needed.

- Biznet Dedicated Internet service, is a dedicated Internet service for large-scale companies or corporations, which offers Internet service packages starting from 30 Mbps at a price of Rp 6,000,000 / month. This internet service has a 24-hour connection to Global Internet with a dedicated bandwidth allocation (1: 1), ensuring network performance is always in the best condition at all times.
- Biznet Metronet service, an Internet service for the SME or startup segment, which offers several service packages starting at 30 Mbps at a price of Rp 1,200,000 / month.
- Biznet Home services, Internet services for the housing / apartment segment, are offered with prices starting at Rp 325,000 / month, which not only provide a choice of Internet service packages, but also 4K quality Internet + IPTV services, to provide quality programs and entertainment for family.

The presence of Biznet services in Manado is supported by The New Biznet Fiber network technology enabling the company to provide services of a much better quality with a much greater capacity compared to its predecessor technology, which will certainly be able to accommodate continual increment in the future. At present, Biznet's total

Fiber Optic network has reached more than 40,000 KM in more than 110 cities along Java, Bali, Sumatra, Batam, Kalimantan and Sulawesi. In addition to the city of Manado, at the end of 2019 the Biznet network has also been available on the island of Kalimantan to meet the need of the people in Pontianak, which will be followed by other cities.
