

PRESS RELEASE

Biznet Increases Bandwidth Capacity for Business and Home Segments

Jakarta, 31 July 2015 - Biznet officially increased its bandwidth capacity for Biznet Metronet and Biznet Home services, effective 1 August 2015. The increasing number of total Internet users in Indonesia encouraged Biznet, as one of the leading Internet Service Providers in Indonesia, to continue improving its service quality, including by increasing the bandwidth capacity to provide better Internet experience for customers, both business and consumer segments.

“Having a reliable Internet connection is highly crucial for business to grow and expand, and to make sure all business processes are running smoothly. The demand for high-speed Internet from business segment is rising and we decided to increase our bandwidth capacity, not only for business segment, but also for consumer segment through our Biznet Home service. The newly increased bandwidth capacity for Biznet Metronet and Biznet Home service will give a whole new Internet experience to make sure business is on track to reach company goals and also to support all family members at home in doing their online activities,” said Adi Kusma, President Director of Biznet Networks.

The increasing bandwidth capacity is also supported by Biznet coverage expansion, since Biznet has recently announced its massive expansion and now Biznet network’s coverage is available in more than 70 cities throughout Java, Bali and Sumatera Islands. With a reliable technology and supported by strong backbone with Fiber Optic network, Biznet believes that the company will be able to give the best and improved service quality for business and consumer segments.

New Biznet Metronet Packages

Biznet Metronet is a super fast broadband Internet targeted for Small and Medium Business (SMB) with service up to 100 Mbps. Biznet understands every business needs faster Internet speed to run the operation to be more efficient, so as of 1 August 2015, Biznet officially offers new packages with details as follow:

Service	IP Address	Recommended Number of Devices*	Monthly Fee (Rp)	Installation Fee (Rp)
Metronet 3 Mbps	1 (Dynamic Private)	1 – 10	700,000	1,000,000
Metronet 5 Mbps	1 (Dynamic Public)	11 – 20	1,150,000	1,000,000

Metronet 100 Mbps	1 (Dynamic Public)	61 – 100	15,000,000	5,000,000

**Number of devices suitable for each package is based on number of PC, Notebook, Smartphone, Tablet, IP Camera, Streaming Modem, Smart TV, and other equipment that requires Internet connection or Wi-Fi.*

To add more value to the new package, Biznet also offers special promo called Buy 11 Free 1 promo for new and existing customers that valid from 1 January – 31 December 2015, and only valid for Biznet Metronet packages with regular monthly price. For more information about Biznet Metronet service and the special promo program, please visit www.biznetnetworks.com/id/business/internet/biznet-metronet.

Faster Biznet Home Service

Due to higher demand for a faster Internet connection at home, Biznet is also increasing the bandwidth capacity for Biznet Home services as of 1 August 2015, including Biznet Home Internet and Biznet Home Combo packages. The new service will give better Internet experience for all members of the family. The ultra speed Internet connection at home will give many benefits to support day-to-day family activities. Biznet Home Combo offers ultra speed Internet and Cable TV with various International TV channels in High Definition quality.

Biznet Home service will have minimum of 10 Mbps bandwidth capacity, so user can watch video streaming without buffering and play online game better. The bandwidth adjustment will be done automatically and customers are just required reset the Cable Modem and Broadband Router anytime after 1 August 2015 midnight.
