

LAUNCHING BIZNET FOR EDUCATION

SMK NEGERI 3 YOGYAKARTA

Aula SKAGATA, 9 September 2014

PRESS RELEASE

SMK N 3 Yogyakarta Implements Biznet for Education Program

Jakarta, 9 September 2014 – Biznet Yogyakarta Branch, one of the Internet Service Providers (ISP) in Yogyakarta, is building a cooperation to support education. This time, SMK Negeri 3 Yogyakarta has become one of Biznet partners that implements fiber optic technology through **Biznet For Education** program.

SMK N 3 Yogyakarta, which has 8 (eight) class majors, is committed to become the school with the best technology implementation. The use of Biznet technology has increased the quality of Internet in SMK N 3 Yogyakarta.

“Fiber Optic technology used by Biznet is currently the best medium in terms of Internet. Biznet for education comes as an answer for the education world, which requires good quality and advanced technology to develop science, especially in SMK N 3 Yogyakarta. SMK N 3 Yogyakarta is the first Junior High School in Yogyakarta that implements Biznet for Education program,” said Branch Manager of Biznet DIY – Central Java, Manto Wiyono, Tuesday (9/9/2014).

Meanwhile, the management of SMK N 3 Yogyakarta strongly supports this collaboration in education. And Biznet, as one of the best providers in Indonesia, has been proven to have a good quality of internet technology.

“Biznet for Education program expected to support the educational process and school relationship both internally and externally. Moreover, it is also expected to this relationship leads to increase the relationship between business and the industry, regional and national education agencies, as well as wider community, in terms of informing and explaining the implementation of the quality of education in SMK N 3 Yogyakarta,” said the Principal of SMK N 3 Yogyakarta, Aruji Siswanto.

“In accordance with SMK N 3 Yogyakarta’s determination to bring up quality in education, with Biznet as the partner to support the education program, hopefully will support the school to implement IT-based education, and the entire school community can have the advantages of Biznet FO technology internet connection in the education world to improve the quality of learning, both for teachers and students. Biznet for Education program is also expected to support the improvement of quality education in all schools in Indonesia,” Added Aruji.

Manto Wiyono also added, SMK (Sekolah Menengah Kejuruan), as one of the education institutions that develops human resources in Indonesia, needs to have our full support. Biznet has the internet network that already exist in Yogyakarta and Sleman including around SMK N 3 Yogyakarta area, so we can give full support, and the students and all SMK 3 community can experience our FO technology.

Collaboration between Biznet and SMK N 3 Yogyakarta has been starting since April 2014. Moving forward with the spirit of Biznet for Education, Biznet is giving the opportunity for SMK N 3 Yogyakarta to learn more about Biznet technology, including BiznetData Center in Technovillage, Cibubur, which is the largest data center in Indonesia at the moment.
