Time goes by and the economic crisis is still the main issue these days. How do we survive this economic crisis? How do we keep our hopes high and manage to keep the business doing good?

A lot of factor will influence on how we answer a series of questions about surviving this economic crisis. But one thing for sure, we shouldn't lost our spirit in facing this global problem. A wise man once said "Patience is virtue", that statement is true. We should just try our best to face this economic crisis and keep doing our job to the maximum.

As one of the leading Network Provider in Indonesia, Biznet keeps optimistic with the demand of high quality data and internet services by always providing the best solution for our customers' network requirement. Economic crisis will not stop Biznet in creating innovation, including service quality and network expansion.

In so many ways, there are several developments that have been done by Biznet in 2009. In January 2009, Biznet signed a cooperation agreement with PT. Indosat Tbk at Hotel Intercontinental MidPlaza Jakarta for Metro Ethernet Network Interconnection Partnership. This agreement is considered not only to widen our coverage area but also provides more values both for Biznet's customers and Indosat's customers as well.

In order to meet the demand of personal retail broadband service with affordable price, starting 1 February 2009, max3 xpress was launched with speed up to 512 kbps with price tag of Rp. 500,000/month.

We understand delivering quality and values to our customers are very important, we hope all of us can pass this global economic crisis with optimism. For Biznet, this crisis will not stop us to do what we do the best, **creating innovations**.

2009: Biznet Unstoppable Innovation

It is very human to have hope that eventually the economic crisis will be over soon. One thing that our company believe is crisis will not stop our innovation and our commitment to bring a better telecommunication infrastructure in Indonesia. Sure, the crisis has given quite an impact to every companies including Biznet as well. But it doesn't stop us in developing our network. Commitment, spirit and dynamic team are the key.

In January 2009, Biznet synergized with Indosat and signed a cooperation agreement in Metro Ethernet Interconnection Partnership. This partnership is not just considered to expand the corporate segment service coverage area but also to add more values to our customers. The cooperation also affirms both Biznet and Indosat position as the provider with the widest coverage area with total 270 buildings in Jakarta.

"This cooperation enables our customer to enjoy the private peering and easy access to a variety of favourite content that Biznet and Indosat have, so there are more benefits that our client will get" says Adi Kusma, Biznet Networks President Director

Besides the cooperation with Indosat, to answer the increasing demand, Biznet also brought you the latest innovation which is max3 xpress. max3 xpress fulfill your needs to always connected with the cyber world. With only Rp.500.000 you can get an unlimited broadband internet with speed up to 512 Kbps.

"With an unlimited broadband internet access, every Facebook junky could easily update their profile anytime they want and upload their videos without any problems" adds Adi with a smile

So, yes the crisis is still here. Yes, 2009 will be a tough year for every companies. But, no we won't stop our innovations.

P

T Global Asistensi Manajemen Indonesia (GAMI) which trades under the name of Global Assistance & Healthcare®, was established in 2000 and is located in Jl. T.B Simatupang Kav. 38, Graha Simatupang Tower I D Lt. 8, South Jakarta.

Global Assistance provides health benefits administration and risk management services to insurance companies and to employers direct who choose to self-fund their employee medical benefits. Their mission is “to provide our clients, their customers and their employees with patient, telephone, claims assessment, enrollment, risk management and reporting services that exceed their expectations each and every time.”

Jessy Deryane, their Senior Manager Client Services, explains that their focus is providing value for employers in terms of Risk Management by controlling medical benefit costs, monitoring patients in hospital daily, negotiating discounts with providers etc - while at the same time maximizing service to employees and their families via dedicated 24 hour call centers, email services, health education seminars, cashless medical treatments etc. Global contracts more than 650 hospitals and clinics throughout Indonesia and can arrange better pricing and cashless treatments throughout Indonesia, Singapore, Thailand and Australia. They contract more than 1500 facilities throughout the USA and Canada alone – and again each offers better pricing than what you can obtain as a “walk in patient”.

Global Assistance started using the Metronet 4 Mbps from Biznet since September 2008 and has been very happy with its reliability and speed in particular. Global downloads considerable data to its clients, generates thousands of “Claims Paid Statements” every day with most sent by email – so speed and reliability from its internet provider is essential for them to meet their Agreed Service Standards with clients.

“Our clients expect fast, professional services when we are looking after their employees in their time of most need” said Jessy. “Having professional business partners like Biznet is critical if we are to remain a leader in our own field”.

Special Offers to BizNet Subscribers Only!

As a special promotion to Biznet Corporate Clients, Global Assistance has agreed to give a 20% discount on standard pricing for its Employee Benefits Administration & Risk Management services. Contact their Marketing Manager Ibu Poppy if interested on 08174803784 or by email at Marketing@Global-Assistance.net.

20% Discount on Corporate Employee Health Benefit Management Services for Biznet Corporate Subscribers

How To Survive Your Business Through The Economic Crisis

- 1. Create more than one business plan.** In a situation that is quite unstable like today, every companies need more than just one business plan. This is to prepare every change that might happened some time in the future. A set of alternative will prepare your company to be one step ahead in major events.
- 2. Learning is an advantage and knowledge is gold.** As far as the history goes, knowledge had always been valuable. Search, browse, read, or do anything to gain more knowledge that will be useful to face this global economic crisis. Another way to gain more knowledge is by attending various seminar that suits your business and passion. You can check www.markplusinc.com to see if there is any interesting seminar that you wish to attend. Not just that, you can even read a lot of interesting articles and models that gives you more insight in managing your business.

3 Websites To Make You A Photoshop Ninja

Photoshop is hard. There are all kinds of menus, commands, and keyboard shortcuts that you've got to figure out. Once you learn how it works, it's an unbelievably useful and powerful tool, but the learning curve is enormous.

Using the Web though, you can learn how to do just about anything in Photoshop, and either become great at it or just get really good at faking it. Either way, you're doing cool stuff. Here are three sites to learn Photoshop online and get you Photoshopping like a champion:

1. www.tutorial9.net

Tutorial9 has a ton of different tutorials, including a lot of them for Photoshop. Every tutorial has step-by-step instructions, complete with pictures of the tools you need and the buttons you should click on (really helpful- what in the world does the "capture" tool look like?).

Then, for everything you need to do, there's a quick video showing you what it looks like. There's no narration, but that's okay- the step-by-step instructions do everything you need. Tutorial9 helps you do all kinds of things with Photoshop- my favorite was creating burnt parchment. You know, without burning anything. Definitely a great site to learn photoshop online.

2. www.psdutts.com

With psdtuts, you'll see lots and lots of pictures. Tutorials are made up almost entirely of pictures that give you the slightest detail instructions on how to do various things in

Photoshop. One of the best things about PSDTUTS are the comments on the tutorials, which help to iron out the possible issues with the tutorials as presented. The tutorials are long, because they're so broken down, but if they can teach me to make a Web banner out of a motorcycle, they're doing something right.

3. www.good-tutorials.com

There's nothing terribly unique about Good-Tutorials, except that it's more of a general guide to using Photoshop than a guide to achieving a particular effect in Photoshop. Though Good-Tutorials does have those tutorials, it's also got things like "Create a Photoshop Action for Screenshots" to help save you time and effort in Photoshop. Simple tutorials and powerful Photoshopping both come from Good-Tutorials.
