2010 is here and the future is in our hand!

Every year means new innovation for us and we are very excited in entering this year.

We are very proud to introduce our latest innovation, **Biznet Technovillage**, the home for next generation technology companies.

Located in Cibubur, Biznet Technovillage will have a unique and eco-friendly concept that was designed by Andra Matin, one of Indonesia's talented Architect collaborated with the world's leading Landscape Architect, Denise Selinger of St Legere Design International. With 3 hectares of land area, the Biznet Technovillage is an integrated high tech and modern village with complete facilities to support your daily activities.

Biznet Technovillage will provide 6,000 m2 of Tier 3 Data Center Certification and 9,000 m2 of Grade A Office Space. With 50 percent of the total landscape for natural park, water garden and open space, it will make Biznet Technovillage as a Green architecture with comfortable working environment.

To expand our retail market, in December 2009, we have collaborated with Kabel Siar and expanded our network coverage to Alam Sutera, Tangerang to reach broader retail market with max3, the brand that specifically design to meet the needs of the retail segment.

This latest innovation will not be the only innovation from Biznet. We always prepare the next big thing for you. Please sit back and relax, let Biznet help to grow your business and entertain your life.

THE FIBER NETWORK IS HERE

Since year 2005, Biznet has been building the fastest and the most reliable Data Communication and Internet Backbone Network using Fiber Optic technology. Today, with more than 1,200 KM of Fiber Optic Route, Biznet Metro Network is available in 7 cities, 42 district, 300 buildings and Biznet InterCity Network is available from Serang - Jakarta - Karawang - Bandung.

Why wait? The Fiber Network is Here. Biznet has been widely used by leading enterprises, small medium businesses, learning centers, government institutions and homes/apartments. Use Biznet for your most critical network and applications. For more information about our services, please contact via phone +62-21-57998888, email sales@biznetnetworks.com or web at www.biznetnetworks.com.

2010, The Future Innovation

Time goes by and we have managed to enter the new year. Every year we are challenged to create new innovation and that what makes Biznet a very dynamic company. This year, we are introducing our latest innovation called Biznet Technovillage, an integrated high tech & modern village located in Cibubur area, targeted for research, telecom, media and outsourcing companies for their operation office, research center, media production, outsourcing center and backup facility.

Biznet Technovillage plans to start construction in January 2010 and expected to finished in October 2010. The project will consist of 6,000 m² of Tier3 Data Center Space and 9,000 m² of Grade A Office Space. With 3 hectare of total land area and having 50 percent of it as a park, water garden and open space, has definitely bring Biznet Technovillage as one of the eco-friendly office space.

Designed by the leading Indonesian Architect Andra Matin and the world's leading Landscape Architect Denise Selinger of St Legere Design International, Biznet Technovillage provides a very comfortable surroundings that will create a conducive

environment that produce creative thinking and fresh ideas. Apart from the Data Centre, Biznet Technovillage will provide a Village Center which is the central hub for the whole village that contains dining lounge, mini market, engineering room and security control room.

Approaching 2010, Biznet Network cooperated with Kabel Siar expanded the network coverage to Alam Sutera, Tangerang to reach broader retail market with max3, the brand specifically

designed to meet the needs of the retail segment. With this new agreement, we are targeting to reach 2500 new customers in our first year of cooperation with Kabel Siar.

In 2010, this year will be another breakthrough year for Biznet as we are celebrating our 10th anniversary in October 2010. Be prepare for our next innovation that will enhance our position as one of the leading Telecommunication Company in Indonesia.

Komodo Island, a Challenge for Your Adventure Sense

Komodo Island is located in Nusa Tenggara Archipelago and considered as one of the most unique eco-tourism destination in the world. The island boasts a wide array of floral exotism and hides a true natural beauty. Komodo Island is known as the true habitat of Komodo Dragon, world's largest lizard and also one of the rare animals in the world. Komodo Dragon is really big and can reach over 3m in length, weigh up to 100 kg and feed on animals as large as deer and buffalo. Komodo Dragon is the closest prehistoric creature that we can still see alive.

www.farhanvsgnk.wordpress.com

www.iravvati.wordpress.com

www.sxc.hu

In the island, you can enjoy your trip by watching the life of Komodo Dragons, explore the island accompanied by the local guide, and enjoy the breathtaking view of the beach and hills that is guaranteed to be a feast for your eyes.

To get to Komodo Island, first you have to go to Denpasar, Bali and use airplane from there to the nearest city to the island, Labuanbajo in Flores. It is also the nearest port and serves as the main jumping-off point for trips to the Komodo National Park. Then, you can take a boat to get you to the Komodo Island. You will enjoy an amazing view while you are on your way to Komodo

Island. The best time to visit Komodo Island is around May - July because the weather is so perfect.

The Komodo National Park has been the main attraction on this island and can really evoke your adventure sense. The island itself is isolated, a perfect place for you to unwind and escape from the city's hustle and bustle. To indulge your adventurous sense, you can go trekking but be sure to ask the local guide because it could be dangerous to take the hiking trail alone.

This exotic island has its own charm and will tempt you to dive the blue

ocean. The Komodo's marine has some beautiful point of dive site and you will see a lot of sea creature that you won't see it anywhere else. The dive sites are usually in the Batu bolong, Tatawa Kecil, and Northwest of Komodo Park. Other amazing site you have to visit is the famous Pink beach. It is one of the interesting site you shouldn't miss because of its infamous pink sands that is formed by the dead red coral.

A combination of pink sandy beach, blue skies and the green hills is really such a paradise for people who lives in the city. It is such a rare view that can be a really memorable trip for you.

How to Promote Online Effectively

The development of the Internet has supported our business. As a marketer or business owner, we can use internet as a media promotion of our products or services. It is very effective since many people use internet every day as an important part of their daily activity. Luckily, there are several ways to promote online effectively. Check and see if one of these could maximize your profit.

Develop a Website or Blog

First, making your own website or blog is important if you want to promote online. You can easily find hosting providers to help you in making a good website. But make sure your website ranked high in search engines. Moreover, creating blog is easier and only took 5 minutes. Visit www.wordpress.com or www.blogspot.com for free blog and keep posting about your products and services.

Use Twitter, Facebook or Other Social Sites

Making useful of your current account on social site is the best idea. You can make page or join group that related to your industry, make friends with group members and starts discussion and being helpful at group. Invite them to your website or blog and stay in touch to make sure they will come back whenever they have related demand.

Provide Email Blast Campaigns

Email Blast is the best online marketing tool to announce a new product and share valuable information with customers. Sometimes they like to forward your email to their friends, so make sure you put your website's or blog's URL there. Use clear and powerful headlines to attract them to read your email further. Lastly, make sure that your database is up to date and the list consists of people that are willing to receive your email blast.

Online Contest

Holding an online contest on your websites or blogs is a creative way to promote your business. The main key is you have to make an interesting contest that could attract people. Plus you can give away your valuable products as the prizes. This way, there will be more hits to your website.

Post Video!!

If a picture worth a thousand words, then video must be worth a billion. Yes, it is an excellent way to attract new customers by creating videos. You can reach a large audience by posting it to YouTube or other famous video sites. Don't forget to place your website or blog's URL at the end of every single video you create to make them easy in connecting you.

Now, you can start promoting your products online. You will get closer to your customers and your customers will know your products. But without a reliable internet connection, how can you promote online effectively?. **Why not use Biznet MetroNET? MetroNET is a business grade Broadband Internet Service that connects using Fiber Optic Cable, known for its speed and reliability. Your business is important, with a reliable Internet service, you can work 24 hours nonstop and promote online business effectively! So why wait? Get your Biznet MetroNET now!**

Sizzling Steak !

The smell of grilled meat, the sizzling sound of cooking and the perfect choice of the sauce are the things that is hard to resist from a yummy steak. Some people like it rare, medium-well and some like it well-done. It all depends on your very own taste but sure it's hard to avoid a good steak that tempt your appetite.

We have looked around and found the right place for you to release your meat craving. You can easily choose whether you want a budget conscious meal or be extravagant with your taste.

Otherwise you can contact our store specialist by email to max3_store@biznetnetworks.com or visit www.max3.co.id to see their profile as well. This is why max3 support is different!

Just the Picture Please!!

Have you ever been on a web page with a cool picture but it was surrounded by clutter (you know, ads, text, etc)? Well, here's a trick that will let you display just the picture!

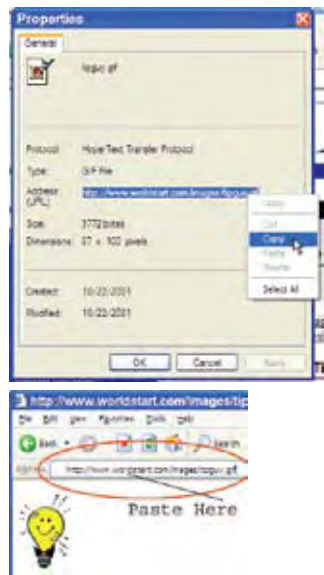

Drag the picture to Internet Explorer's address bar. As long as it isn't linked to something, a page will display with just the picture shown. (However, if the picture contains a link you'll go to that page.)

It's all well and good for pictures that are not linked to some other web page, but what about pictures that are? Can you still pull it off? The answer is yes.

All you have to do is just right-click the picture and select Properties from the resulting menu. When the properties screen comes up, copy the address next to the Address (URL) section (yes, you can actually highlight it for copying purpose).

Paste that line into your address bar, hit Enter, and poof! There's your picture!

Phishing

What is Phishing and how to prevent it?
Phishing, which is a play on fishing, is a technique by which fraudsters fish (or phish, if you like) for gullible people using emails and web sites and have them part with valuable information including personal details, usernames, passwords, credit card numbers, account information etc.

A **Phishing attack** usually begins with a scam email that is sent in thousands, if not millions. The phishing email appears to come from a legitimate source like your trusted bank, Paypal account, eBay account or at times the emails are simply general in nature asking for your help and promising great rewards. This email typically has one or more links to a fraudulent web site which looks like

"the real thing" and where innocent people and fleeced off their sensitive information.

How do you protect yourself from phishing attacks?
A quick and easy way that offers a decent level of protection against scam attacks is the **Netcraft's free antiphishing toolbar**. Netcraft is an Internet services company devoted to tracking online technology. This toolbar is available for both Internet Explorer and Firefox and runs on a community effort that protects you from phishing attacks.

The Yahoo! toolbar also offer antiphishing features that are specially beneficial for Paypal and eBay.com account holders.

Selecting text is not a drag!

Are you used to selecting text on web pages by holding the left mouse button at the start of a block and dragging your mouse until the end of it? Using this method could actually become a drag when selecting long blocks of text. So, here's another way:

1. Left click at the start of the text block that you want to select. You can let go of the left mouse button after left clicking.
2. Go to the end of the block, hold your SHIFT key down and left click again.

Source: www.chami.com

Did You Know?

1. **Yahoo??**
Yahoo the complex internet organism has complicated name. Word "Yahoo" is shortcut for "Yet Another Hierarchical Official Oracle". It was coined by PhD candidates at Stanford University: David Filo and Jerry Yang.
2. **1st Country to apply Online Election System**
The first country that apply online election system was Estonia. Whereas, Estonia is considered as one of the poor country in Uni Eropa. The election was done in March 4, 2007 with total voter around 940.000 people.
3. **First Virus Encountered**
Computer virus is estimated to occurred firstly around 1986 and was created by the Alvi brothers, Basit Farooq Alvi and Amjad Farooq Alvi that was only 19 years old at that moment!
4. **Which rank is Indonesia?**
Indonesia is in the 5th rank from ten biggest internet user in Asia and also become one of the 20 world's biggest internet user!
5. **Americans Going Crazy with Website**
American citizens is more likely to access website pages rather than any other information medium.

6. **Twitter Trend**
In February 2009, Twitter had a monthly growth (of users) of over 1300 percent - several times more than Facebook. Twitter made huge success from the mobile device users (in 2009 there was 735,000 unique mobile visitors)

metroNET for your Small Medium Business

The Small Medium Business in Indonesia keeps growing after the economic crisis. Based on the HSBC's survey, "Emerging Markets Small Business Confidence Monitor", there's about 13 percent of Small Medium Business in Indonesia has increased their capital investment in the second semester of 2009. This has made Indonesia as the third most optimistic Small Medium Business in Asia after India and Vietnam.

There is a modern concept of Small Medium Business these days known as SOHO (Small Office/Home Office) which grow fast since the economic crisis. SOHO increasingly grows along with the development of the communication technology. This is shows how people in business effectively gain benefit the use of internet into their business.

A new International Survey which provides insights Into U.S. and European Small Businesses Perceptions of Internet and E-Commerce, bring the result that effective use of the Internet to increase revenue is the key to success.
(http://www.soho.org/Technology_Articles/SB_Growth.htm)

Are you running a Small Office Home Office too? Thinking of having a reliable internet for your SOHO?

It is important to think wisely before choosing the right Internet connection to support our business. There are many types of Internet connection and claims to be the fastest. Having many options can make the decision-making process harder. We have to analyze which one could bring more benefit to our business. It is important not to be easily tempted by the promotion that is offered by each provider. You should learn more about the technology that they use. In terms of technology, rest assured, you can think MetroNET as your choice of having a high quality internet connection with affordable price for your business.

MetroNET is a Broadband Internet service which suitable for your business. With several options available from 1 to 10 Mbps, allows you to select variety of access speed, depending on your requirement and budget. MetroNET uses Biznet Metro Fiber Optic infrastructure to deliver the fastest and the most reliable service. You can have a fast and reliable internet with a fiber optic network with a competitive price.

MetroNET Features :

- Local loop & Internet Access service up to 10 Mbps
- Secure, fast and very reliable
- Cable connector has RJ-45 Ethernet interface, can be connected directly to your existing router, firewall, proxy or LAN switch
- 1 Public Static IP will be provided for MetroNET 2 Mbps or greater service only, others will use DHCP Private IP
- Direct peering with several Tier-1 provider in the world, huge bandwidth capacity for International & Local
- FREE Biznet Linux Web Hosting 500 MB
- Optional max3 phone - Broadband Phone Service

Having a fast and reliable internet connection will definitely increase your business's productivity when it comes to the network that supports the company's daily activities. We are available on a wide coverage area in more than 300 buildings in Jakarta, Bali, Bandung and Surabaya.

For inquiry, please email our Account Manager at sales@biznetnetworks.com or Call Biznet 500988. You can also visit www.biznetmetro.com for price list information and network coverage.

Mandala Airlines

PT Mandala Airlines was found on April 17, 1969 by the Army (Kostrad). In April 2006, Mandala was sold to Cardig International (Indonesia) and Indigo Partners (AS). Both Investors recognized the huge potential of Indonesia's growing market and the requirement for a well run modern generation airline.

In 2007 an experienced international management team was recruited with the mandate to aggressively transform Mandala into an efficient, safe, reliable, modern generation company to provide added-value for the customers. The strategic goal is to grow Mandala into one of the leading airlines in Indonesia and the region. Within one year of its acquisition, Mandala Airlines has succeeded in transforming its image of a military-owned business into a modern airline that satisfies international standards of safety.

Mandala has a wide network services into 17 flying routes all over Indonesia using Airbus plane in providing on-time reliable services. Mandala offers a various products for their passengers in choosing flight ticket according to their need such as Ultra Saver, Ultra Flex and Mandala Priority. In addition, Mandala also in partnership with Citra International Underwriter (CIU) in providing uncomfortable trip insurance. Until today, Mandala has more than 1000 employess which placed within all over Mandala flying route.

Growing into a bigger Airline, Mandala relies on a suitable Data Centre to support its business. Mandala is using Co location closed rack 14U and Dedicated Line 4, 5 Mbps CIR 1: 1 with Local Loop 100 Mbps. Having to realize that Biznet services has meet its standards, Mandala trusts Biznet could give more benefit to their business. "We've passed series survey before decided to choose Biznet as the best provider to support our business operation. With wide fiber optic coverage network and direct peering to international link, It is easier for our customers and agents to access our website and application. Beside that, Biznet also has a stable International redundant connection". Marked Raymond Chatab, the IT Head of Mandala Airlines.

For More Information about Mandala Airlines,
please visit
www.mandalaair.com

Riska Apricia, usually called Ika, joined Biznet as Marketing Communication Support on 2007. She attended University of Indonesia from which she received a Master Degree of Communication Management on 2009, two years after she finished her Bachelor study from the same university.

In 2008 she was transferred to a new division, Corporate Communication and later on April 2009 she was promoted as the Corporate Communication Supervisor. Until now, Ika is carrying out press release, media plan development, and media relation activity. Not only that, along with the creative team, Ika also

Riska Apricia

Corporate Communication Supervisor
riska_apricia@biznetnetworks.com

“I hope Biznet could enhance its reputation amongst the other companies in telco industry.”

responsible in preparing the above and below the line advertising material and developing quarterly newsletter which lately turned out as the Inspire Magazine.

Passionately, she answered that culinary as her main interest when this expressive young woman was being asked about her hobby. As her love for food, she wouldn't mind if it would affect her body shape although she often is being teased about. Apparently, she also travels a lot. “I personally think that the world has a lot to offer, so might as well explore it by traveling” said Ika. Not forget to mentioned, watching movie and making scrapbook are also her hobbies. She

called it as her stress-healer because those hobbies could definitely calms her down when she felt upset.

Ika known as a humourous and energetic person among her colleague. On weekend, Ika has list of activities to spend. She likes to go out, watch movie, do scrapbook and also learn to cook. Working at Biznet for almost 2 years, Ika hopes Biznet will even become a bigger telecommunication company in the future and of course Biznet could enhance its reputation amongst the other companies in telecommunication industry.

Anton Sudjarwo

Customer Loyalty Executive
anton_sudjarwo@biznetnetworks.com

“I believe Biznet has all the ingredients to be a leading telecom company”

Anton graduated from STT Telkom Bandung in 2002, getting his Bachelor's degree in Electrical Engineering. He has been with Biznet since January 2006, and has excelled through the ranks of

Biznet's corporate ladder. He got his start as a Customer Care Specialist, and immediately showed great enthusiasm towards his work. Through his wide array of skills and excellent character, he has managed to execute his tasks very well and achieve what was demanded of him with great commitment. It did not take long for him to be noticed, and he soon moved on into other positions in Biznet Networks.

He has been trusted with various positions, from being appointed as Corporate Business Specialist in May 2006, a Branch Manager of the Central Jakarta Branch in June 2008, and his

latest post, a Customer Loyalty in October 2009. He approaches his latest responsibility with the qualities that has served him well as a professional, “In all of my positions, I always try to make sure that I've tried to work my hardest and be passionate in every aspect of my work” states Anton. He believes that his new role will be challenging, but is determined to succeed.

Getting his hands busy at work does not mean Anton forgets about unwinding. As a person who believes that life needs to be balanced, Anton counts tennis and traveling as his main hobbies. His weekends usually entail a couple of

matches with friends at his local tennis court, and spending some quality time with his family. From time to time, he tries to travel as much as he can. He explained how seeing the world is a great passion of his, and it brings him such a pleasure to see new places and meet new people.

Finally, when it comes to his hopes of Biznet's development in the future, his cheerful demeanor turned serious, “I've been a witness of Biznet's arrival as an internet provider with fiber optics as its technology. I certainly take great pride in this company, and would like to see through the excellent work the company has done so far. I believe that Biznet has all the ingredients to be a leading telecommunications company, and it would be up to all of us to show that we can do it”.

It was in 2001 when Jemmy received his Economy Management Bachelor's degree from the Bung Hatta University Padang, Western Sumatera. In October 2006, he got his start with Biznet Networks, recruited as a Telemarketing Staff. He found his feet quickly and soon garnered praise for his committed approach towards work. “Being a Telemarketing Staff requires a certain composure, and it is definitely not an easy job.” Jemmy says. “But I believe that anyone who has a positive outlook, and a willingness to provide great service, will be able to get the job done” he explains further.

In 2007, his division was renamed as Inside Sales Division, and he then became an Inside Sales Staff. His enthusiasm shines through when asked what exactly does his job requires him

Jemmy Amran

Inside Sales Manager
jemmy_amran@biznetnetworks.com

“I believe that the company is moving towards the right direction in realising the ambition”

to do. “The job actually requires me to do several things, from processing the administrative side of an incoming order, arranging all the necessary permits for

field projects, scheduling installation work, and also processing the data input in the billing so that Finance can process the invoice”. Jemmy explains thoroughly. He explained further that he feels happy and fulfilled with the work he does, and as long as he keeps a detailed eye, he is certain that he can do a good job.

The same enthusiastic smile broadens ever wider when asked about the things he does in his free time. He quickly pointed out that his interests include listening to music and cooking. “My two hobbies might not seem to be related, but in a funny way in actually does.” Jemmy exclaims with a smile. “Great cooking is about harmony, and what

better place can you find better harmony than in great music?” He explained further how he likes to try cooking new menus with his wife during the weekend.

His hope for Biznet Networks in the future is simple yet ambitious. “I've been with this company since 2006, and I hope to be with this company for many years to come. I certainly wish that I will be a witness of this company's ascendancy to be the company with the largest fiber optic network in Indonesia”, states Jemmy. He believe that the company is moving towards the right direction in realising this ambition, and stated firmly that all of the employees have their part in achieving the goal.

Biznet Milestone

Biznet Networks established in 2000 as an Internet Service Provider to provide Internet solutions for business customers. In 2000, Biznet was using the Wireless and In-Building Ethernet Technology, with the support from a committed and the best engineering team, Biznet Networks started to build its way towards becoming one of the leading Network Service Provider in Indonesia.

With the emerging demand of a very reliable network infrastructure, Biznet Networks realized a lot of companies are depend on a good infrastructure to manage their business. After several research and development, Biznet Networks Engineering Labs Team considered fiber optic as the best network and soon started to deploy the fiber optic network around Jakarta.

Internet & Technology

Started in 1957 through the Advanced Research Projects Agency (ARPA), the United States were determined to develop an integrated communication network that connect the science community and the military. This was set by the Cold War between United States and Soviet Union (Soviet launched the Sputnik in 1957)

The first Internet development was ARPA's most important discovery which was switching package in 1960. Switching package is a message delivery that could be break into small packages that each can go through several route alternative if on of the route may be broken in accessing the preordain destination. The switching package also enables the network to be used together to make more connections, differed with telephone line that needs certain route to make a connection. When ARPANET became United States national computer network in 1969, switching package was used comprehensively as communications method in exchange of the switching circuit that is used on the public telephone.

Internet's second development in internet history was the infamous development of the network protocol layer because it is majorly used at present, which is the TCP/IP (Transmission Control Protocol/ Internet Protocol). Protocol is a collection of rules for connecting between network. The protocol was developed by Robert Kahn and Vinton Cerf in 1974. With the standard protocol and approved widely, the local network that is spread in several places can be connected and build a giant network, even now it has cover the world. The network that uses this internet protocol is what we call now as the internet network.

- 2005**
The first development of Fiber Optic Network in Sudirman area with ring configuration using Metro Ethernet technology.Total distance 10 KM.
- 2006**
Biznet expanded coverage to cover more CBD area such as Thamrin, Gatot Subroto and Simatupang area. Total distance 50 KM.

Biznet set up new direct link to Japan and peer with Japan Internet Exchange (JPIX).
- 2007**
Biznet expanded Greater Jakarta. Total distance 250 KM.

Biznet launched Metro FTTH Network, the first Fiber To The Home network in South East Asia.
- 2008**
Biznet deployed Biznet InterCity Network between Serang and Bandung to provide connectivity along those areas. Total distance 1000 KM.
- 2009**
Biznet expanded Metro Fiber To The Home Network (Metro FTTH) to Bali Island with total around 30 KM of route installed. Total distance 1200 KM.

Global IP Transit

Internet has become a critical network infrastructure to support business application as well as personal communication. Both business and residential users demand the best service, network performance and pricing to accommodate their requirements. To support those requirements, Biznet Global IP Transit Service is the best choice for stable and robust solution.

As one of the leading telecom infrastructure company in Asia, Biznet offers Global IP Transit with redundant equipments, ultra high-speed connections to all the major Internet backbones and Internet Exchanges, and ensuring routing and bandwidth allocation available at all time. Biznet Global IP Transit is the best choice for you and your customers.

Biznet Global IP Transit services provide direct connection to multiple Global Tier-1 Internet Providers and leading Internet Exchanges in the world. Using our service removing the hassle to negotiate direct peering agreement with major content providers in Asia, Europe and USA.

Proven Performance

Biznet Global IP Transit provides you with a superior Internet experience. We guaranteed 99.8 percent Service Level Agreement (SLA) uptime, the lowest packet loss and latency, direct connection to major Internet Exchanges in the world using multiple submarine cables as redundancy. Many telecom carriers, ISPs and enterprises have been using this network since year 2000.

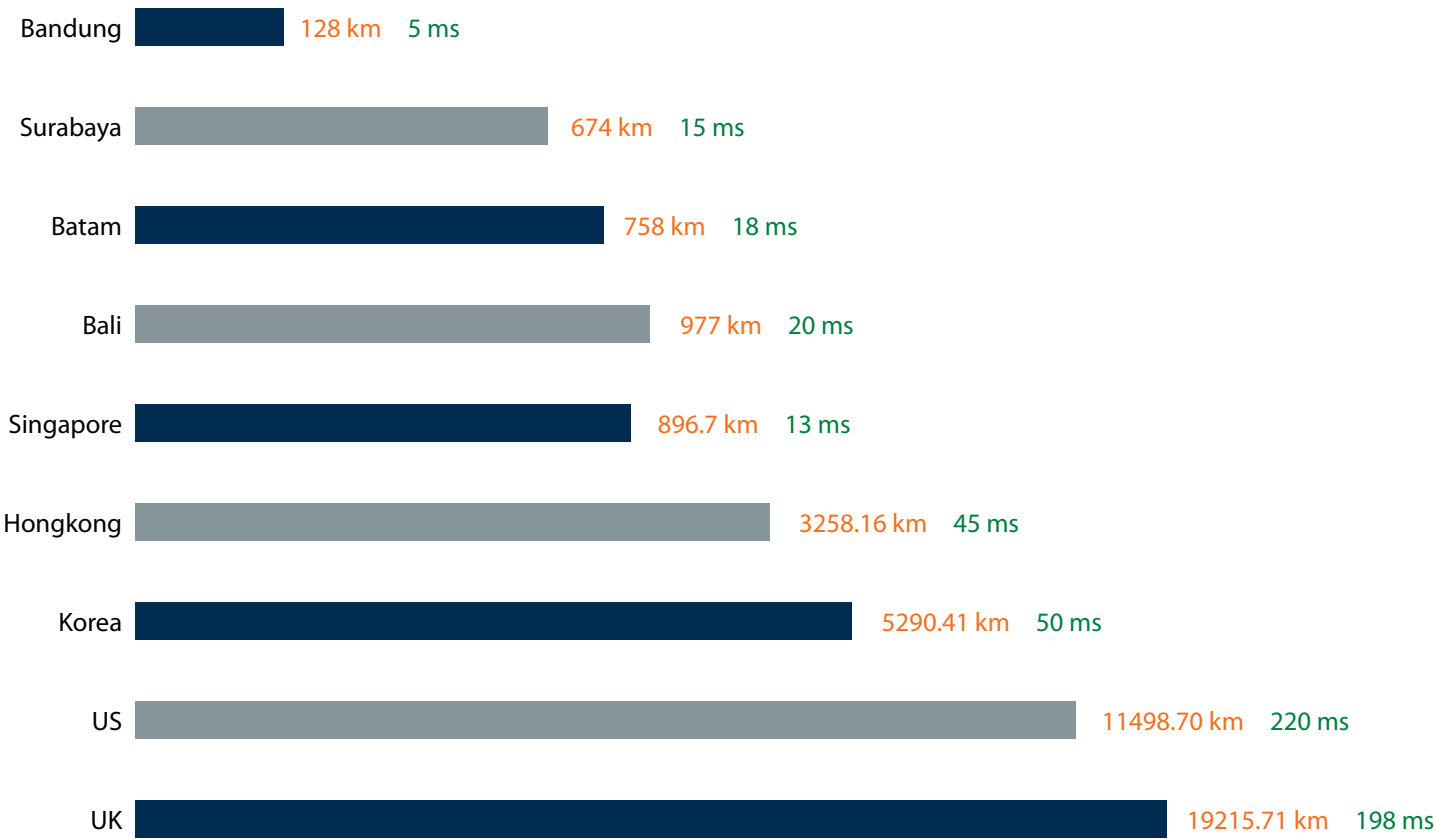

World-Class Premiere Care

Biznet Premiere Care is the heart of our proactive support service to our customer. Network performance constantly monitored 24x7 at Biznet Global Network Operating Center facility in Jakarta, Indonesia. With multiple support level system to ensure all the issues resolved quickly and effectively to minimize downtime for you and your customer satisfaction.

Global POPs Location

Biznet GlobalPOP located in Jakarta - Indonesia, Singapore, Hong Kong - China, Tokyo - Japan, Seoul - South Korea, Palo Alto - USA and London - UK. Biznet is actively expanding our GlobalPOP coverage.

From Jakarta

Website you usually visit:

www.kompas.co.id = 0 ms www.kaskus.us = 0 ms www.detik.com = 1 ms

Distance Ping time

Ping times above are the average of total time spent in reaching the destination from your computer through Biznet Network in normal condition.
Ping time indicated in milli-seconds (ms), 1 ms = 1/1000 second

Biznet Networks has direct connectivity (Direct Peering) to major cities and Internet Exchanges in the world to minimize the route to reach destination for shorter hops.

- Facts:**
- Ping stands for Packet Internet Groper which created by Mike Muss in 1983
 - 'Ping' inspired from active submarine sonar which usually makes ping noise as it meet an object.
 - 'Ping' has the analogy when sending a package of data; it will receive a package of data too as a reply.

Why Do You Choose Biznet As Your Provider?

One of the leading telecommunication provider in Indonesia

Using Fiber Optic, that provides the most reliable network connection

24 hours professional customer care
